To,
Hiring Manager

Subject: Application for Internship / Trainee / Full-Time Software Engineering Role

Dear Hiring Manager,

I am writing to express my interest in opportunities for an internship, trainee, or full-time software engineering role at your esteemed organization. I am currently pursuing a B.Tech in Computer Science at Malla Reddy Engineering College, expected to graduate in 2027. With a strong foundation in full-stack web development, problem-solving, and cloud technologies, I am eager to contribute my skills to impactful projects while learning from industry experts.

During my academic journey, I have built projects such as a Syllabus Management System serving 200+ students and an Airbnb clone with full CRUD operations, authentication, and cloud-based file storage. I have hands-on experience with the MERN stack, RESTful APIs, and deployment tools. Additionally, I am certified in Microsoft Azure AI Fundamentals and Oracle Cloud AI Foundations, and I have solved over 250 coding problems on platforms such as LeetCode and HackerRank, which has strengthened my algorithmic and problem-solving skills.

I am particularly motivated by opportunities where I can apply technical expertise, collaborate with diverse teams, and contribute to building scalable, user-centric solutions. I am confident that my dedication, adaptability, and passion for technology make me a strong fit for your organization.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with your organization's goals.

Sincerely,

Yasir Arfat
